246-52 Professional Security

Basic Pistol

\$403.75/person

This two-day course is designed to introduce the student to the basics of using a pistol in a safe and efficient manner. Students will hone their fundamental shooting skills while increasing their ability to shoot quickly and accurately.

Tactical Pistol

\$650.75/person

This three-day course is designed for the individual who already has a solid foundation in the use of a pistol. This is not a basic course and will emphasize the use of the pistol in a tactical environment. Students will be placed into realistic scenarios that may be encountered while carrying either overtly with a drop holster or covertly with a concealed holster.

Tactical Carbine

\$650.75/person

This three-day course is designed to enhance and finely tune marksmanship basics while moving onto advanced combat shooting techniques. Students will test their fundamental shooting skills while being placed in realistic scenarios on the ground and from a moving vehicle.

Tactical Carbine/Pistol

\$997.50/person

This five-day course is designed to enhance and finely tune marksmanship basics while moving onto advanced combat shooting techniques. Students will test their fundamental shooting skills while being placed in realistic scenarios on the ground and from a moving vehicle.

Sniper/Marksman Observer

\$1197.00/person

This intensive 5 day course is delivered in a comprehensive format which is designed to deliver maximum information in a short amount of time. This course rapidly develops valuable operational capabilities and creates a solid foundation of knowledge for continued professional development. Focus of the course is precision marksmanship and sniper team interaction.

*** Cost reflects training at O'Gara's Tactical Training Center. Travel & Facility expenses constitute an additional charge and will be consistent with state & federal guidelines for such expenses.**

Safe Driver Training

\$498.75/person

This is a one day course that enables students of all ages the ability to better understand their vehicle and its basic components. Upon completion of this course, the students will feel more confident in the safe operation of their vehicle through extensive practical application exercises based on real world scenarios.

Executive Protection Driving

\$2303.75/person

This three-day course is designed for Executive Protection Detail members to learn how to push the performance envelope of their EP vehicle in realistic settings in order to successfully escape hostile engagements. Training will be conducted in sedans and SUVs.

Counter Terrorism Driving

\$2303.75/person

This is a three day course that provides personnel working in high threat environments the tactics, techniques, and procedures to deter, detect, and counter terrorist attacks. Training for this course will be conducted not only in sedans but also in the higher center of gravity SUVs that are the primary vehicles of choice for those operating in austere environments.

Executive Protection

\$997.50/person

This five-day course is designed to instill a solid foundation of knowledge and protection skills into each member of a protective detail. Executive Protection is widely used to protect foreign dignitaries, celebrities and corporate executives.

High Threat Protection

\$1705.00/person

This five-day course is designed to instill a solid foundation of knowledge and protection skills into each member of a protective detail. High Threat Protection is being utilized by U.S. forces and contractors in current theaters of war in support of the Global War on Terror.

Surveillance Detection

\$2299.00/person

This five-day course is designed to evolve an entry-level S.D. team member into a competent pre-attack observer in five short days. Surveillance Detection is widely used by U.S. forces and Executive Protection Teams operating in hot spots around the world in order to detect and interrupt attacks before they are properly executed.

*** Cost reflects training at O’Gara’s Tactical Training Center. Travel & Facility expenses constitute an additional charge and will be consistent with state & federal guidelines for such expenses.**

Pre-Deployment Training

\$2498.50/person

This 5 day course prepares personnel in the necessary force protective measures required for deployment throughout the world. Students are exposed to worldwide threat assessments and conduct self analysis of pre-deployment status. This course can be tailored to accommodate site specific threats, customs and habits for any personnel going abroad.

Close Quarters Conflict

\$1244.50/person

This 8 day course is designed for novice or intermediate entry team members. Through progressive instructional techniques starting from developing a solid foundation, heavy emphasis is placed on marksmanship, weapons qualification, communication, movement techniques (individual/team) and target engagement within a confined space.

Close Quarters Battle

\$1244.50/person

This 8 day course is designed to develop entry team cohesiveness while organizing standardized tactics, techniques, and procedures. Training objectives focus on mission planning, command and control, entry point procedures, internal movement, communication, overwatch consideration, and target engagement within a confined space. Heavy emphasis is placed on marksmanship, target recognition, and safety.

*** Cost reflects training at O’Gara’s Tactical Training Center. Travel & Facility expenses constitute an additional charge and will be consistent with state & federal guidelines for such expenses.**

426-99 New Services/Products

The Citadel 360° Range

\$703.76/day

This 360° firing range is 60 meters in diameter and supports weapons up to 7.62 mm. The range allows for live fire exercises to be conducted from moving vehicles or stationary vehicles. Up to 15 temporary firing positions may be set up in order to utilize the range in a traditional 50-yard fashion. A covered loading table is located on this range.

300 yd Rifle Range 0-100 yards

\$603.23/day

Up to 7.62 caliber weapons may be fired. The range is 50-meters wide and allows for 15 firing positions if the range is being utilized in a traditional fashion. A covered loading table is located on this range.

300 yd Rifle Range 0-300 yards

\$703.76/day

Up to 7.62 caliber weapons may be fired. The range is 50-meters wide and allows for 15 firing positions if the range is being utilized in a traditional fashion. A covered loading table is located on this range.

1000 yd Rifle Range

\$1005.38/day

The 1,000 yard Known Distance range has raised shooting positions at the 300, 400, 500, 600, 700, 800, and 1,000-yard markers. Up to 7.62 caliber weapons may be fired. The range is 50-meters wide and allows for 15 firing positions if the range is being utilized in a traditional fashion. The impact area is equipped with four risible target systems. Targets may also be walked laterally in the heavily fortified impact area. A covered loading table is located on this range.

100 yd Multi-Purpose Range

\$603.23/day

This 100-yard firing range supports weapons up to 7.62 mm and is 50 meters wide. 15 covered shootings positions are available. A covered loading table is located on this range.

50 yd Multi-Purpose Range

\$603.23/day

This 50-yard range supports weapons up to 5.56 mm and is 35 meters wide. 15 covered shooting positions are available. A covered loading table is located on this range.

50 yd Steel Range

\$703.76/day

This 50-yard range supports pistol and submachine gun weapons up to 45 calibers and is 35 meters wide. 10 covered shooting positions are available. The range comes equipped with reactive steel targets for immediate feedback to shooters: two bianchi plate racks, six pepper poppers, a dueling tree, and eight chest plates. A covered loading table is located on this range.

50 yd Steel Range ½ day

\$354.28/ 1/2day

Three Range Combinations (50 yd, 100 yd, and Steel)

\$1709.14/day

2 Multi-Purpose Ranges (50 & 100 yd)

\$1105.91/day

Steel and Multi-Purpose Ranges

\$1206.45/day

Live Fire Shoot House

\$1508.06/day

The single-story Range Systems® Live Fire Shoot House is roughly 1,000 square feet of fully furnished training space and comes equipped with eight ballistic bullet traps. The shoot house supports weapons up to 5.56 mm. and comes equipped with a viewing cat-walk on the second story. The shoot house boasts four rooms and a hallway with two exterior entry points and five interior doors.

Live Fire Shoot House with Explosive Breaching

\$1809.68/day

Explosive, mechanical and ballistic breaching techniques are authorized. Flash bangs may be utilized in this venue.

Live Fire Shoot House with 1 Range (50 or 100 yd)

\$2010.75/day

Live Fire Shoot House with 300 yd Range

\$2513.44/day

Mock School Building (Force on Force)

\$1005.38/day

The Mock School Building is predominantly used for active shooter, hostage rescue and direct action mission scenarios. This one-story elementary school has about 20,000 square feet of fully furnished training space and replicates a modern-day American elementary school. The building comes equipped with closed circuit television cameras that record both video and audio. Force on force scenarios utilizing Simunitions® FX® cartridges are commonly used in this venue.

Mock Embassy Building (Force on Force)

\$1005.38/day

The Mock Embassy Building is predominantly used for active shooter, hostage rescue and direct action mission scenarios. This one-story Embassy has about 10,000 square feet of fully furnished training space and replicates a modern-day office space. The building comes equipped with closed circuit television cameras that record both video and audio. Force on force scenarios utilizing Simunitions® FX® cartridges are commonly used in this venue.

Sims Complex with One Classroom

\$2010.75/day

Schoolhouse, Embassy, and one 50 seat classroom

Tactical Training Complex (TTC)

\$5036.45/day

Schoolhouse, Embassy, Live Fire Shoot House, two 50 seat classrooms or one 100 seat classroom, 50 yd steel range, 50 yd multi-purpose range, and 100 yd multi-purpose range

Hard Surface Track

\$2776.75/day

Up to six road course configurations ranging in length from 1.1 to 4.2 miles may be utilized. Each configuration features constant, increasing and decreasing radius turns, changes in elevation, high speed straight-aways and S-turns.

Off-Road Rally Course

\$1005.38/day

3.8-mile dirt and gravel rally race course is the perfect place for teaching elevated speed driving on unimproved road surfaces. This course features constant, increasing and decreasing radius turns, changes in elevation, high speed straight-aways and S-turns. Our off-road Chevrolet Tahoes and Nissan X-Terras are commonly used as the training platforms of choice on this course.

Off-Road Obstacle Course

\$1005.38/day

The 1.2-mile Off-Road Obstacle Course features twenty two obstacles: vehicle climbs, descents, tipping points, straddle trenches, tank traps, a stair climb, a suspended log bridge and a rock pit. Our off-road Chevrolet Tahoes and Nissan X-Terras are commonly used as the training platforms of choice on this course.

Off-Road Sand Pit Obstacle Course

\$1005.38/day

The five acre sand pit obstacle course features eleven obstacles: vehicle climbs, descents, tipping points, tank traps and a water crossing. Our off-road Chevrolet Tahoes and Nissan X-Terras are commonly used as the training platforms of choice on this course.

Off-Road Trails

\$1005.38/day

The 10.6 miles of off-road trails skirt The Dan River along the northern and western side of The Tactical Training Facility. The trails feature many steep hill climbs and descents, ditch crossings, water crossings, a suspended bridge crossing, and tree negotiation obstacles. Our off-road Chevrolet Tahoes and Nissan X-Terras are commonly used as the training platforms of choice on this course.

Training Sedan

\$861.75/day

Fifteen Ford Crown Victoria sedans ranging in age from 2003 to present are utilized for vehicle dynamics and high-speed driving techniques.

Training SUV (Track Tahoe)

\$861.75/day

Up to six Chevrolet Tahoes ranging in age from 2003 to present are utilized for vehicle dynamics and high-speed driving techniques.

Training SUV (Off-Road Tahoe)

\$861.75/day

Up to eight Chevrolet Tahoes ranging in age from 1999 to present are utilized for unimproved roads driving at elevated speeds and off-road techniques. Each vehicle comes equipped with a four pairs of leather gloves, a hydraulic wench system, a snatch-strap, two tree savers, two snatch blocks, a PullPal®, a shovel, a chain and two clevis shackles.

Training SUV (Off-Road X-Terra)

\$861.75/day

Up to six Nissan X-Terras ranging in age from 2001 to present are utilized for unimproved roads driving at elevated speeds and off-road techniques. Each vehicle comes equipped with a four pairs of leather gloves, an electric wench system, a snatch-strap, two tree savers, two snatch blocks, a PullPal®, a shovel, a chain and two clevis shackles.

Disposable Vehicle (Close Proximity/ Motorcade Operations)

\$708.55/day

Up to twenty disposable vehicles ranging in make, model and year are on site and utilized for close proximity driving techniques, Precision Immobilization Techniques, Ramming Road Blocks and Shoot from Moving Vehicle operations. These vehicles can also be used for motorcade or low profile operations.

Disposable Vehicle (Target Vehicle)

\$201.08/day

These disposable vehicles have reached the end of their life and are utilized as target vehicles for either live firing operations or ramming roadblock situations. All hazardous fluids and materials are removed from the vehicles prior to performing either of the aforementioned events.

Classrooms

The Tactical Training Center accommodates classroom training and provides a 1200 square foot classroom that comfortably accommodates over 100 students and their equipment. This space can also be divided into two separate classrooms. A weapon cleaning area is provided for each space along with a dry erase board and a projection screen. Additional classroom space is available in the administration building. A 7,200 square foot facility, the building houses administrative offices, two classrooms, showers, an automotive maintenance facility, and a weapons cleaning area.

Classroom One

\$153.20/day

This classroom comes equipped with an instructor computer, a projector, a projection screen and two large dry-erase boards. It supports up to twenty six student seats/desks in a climate-controlled environment. Restrooms are located nearby. Beverages may be provided to students utilizing this classroom.

Classroom Two

\$153.20/day

This 1000 square-foot classroom comes equipped with an instructor computer and microphone, a projector, a projection screen and two large dry-erase boards. It supports up to fifty student seats/desks in a climate-controlled environment. Restrooms are located nearby. Beverages may be provided to students utilizing this classroom.

Classroom Three

\$153.20/day

This 1000 square-foot classroom comes equipped with an instructor computer and microphone, a projector, a projection screen and two large dry-erase boards. It supports up to fifty student seats/desks in a climate-controlled environment. Restrooms are located nearby. Beverages may be provided to students utilizing this classroom.

426-4C Night Vision Equipment

Stowage Mount

\$878.04/mount

The Stowage Mount is an alternative choice to the Fixed Mount. It provides a mounting interface between the helmet adapter plate and STS's Low Profile Night Vision Goggle, Low Profile Night Vision Monocular or Dayviewer products. It offers the same adjustments and features as the Fixed Mount with the additional capability of raising the entire LPNVM, LPNVG, or Dayviewer into a stowage position on the helmet. In addition to the Stowage Mount, a Helmet Adapter Plate or Helmet Strap is required to complete the equipment necessary for a helmet mounted solution. Various part numbers of the Stowage Mount are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Fixed Mount 20° / 2.016"

\$473.66/mount

The Fixed Mount is an accessory which provides a mounting interface between the selected helmet mounting system (Helmet Adapter Plate or Helmet Strap) and the Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. It provides for quick and easy horizontal and vertical adjustments of an attached goggle to accommodate differences in individual heads and helmet sizes. It attaches to any helmet outfitted with a STS Helmet Adaptor Plate or Helmet Strap. Various part numbers of the Fixed Mount are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Fixed Mount 25° / 2.5"

\$473.66/mount

The Fixed Mount is an accessory which provides a mounting interface between the selected helmet mounting system (Helmet Adapter Plate or Helmet Strap) and the Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. It provides for quick and easy horizontal and vertical adjustments of an attached goggle to accommodate differences in individual heads and helmet sizes. It attaches to any helmet outfitted with a STS Helmet Adaptor Plate or Helmet Strap. Various part numbers of the Fixed Mount are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Fixed Mount 25° / 2.016"

\$473.66/mount

The Fixed Mount is an accessory which provides a mounting interface between the selected helmet mounting system (Helmet Adapter Plate or Helmet Strap) and the Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. It provides for quick and easy horizontal and vertical adjustments of an attached goggle to accommodate differences in individual heads and helmet sizes. It attaches to any helmet outfitted with a STS Helmet Adaptor Plate or Helmet Strap. Various part numbers of the Fixed Mount are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Fixed Mount for HGU-55 Banana Clip Mount

\$473.66/mount

The Fixed Mount is an accessory which provides a mounting interface between the selected helmet mounting system (Helmet Adapter Plate or Helmet Strap) and the Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. It provides for quick and easy horizontal and vertical adjustments of an attached goggle to accommodate differences in individual heads and helmet sizes. It attaches to any helmet outfitted with a STS Helmet Adaptor Plate or Helmet Strap. Various part numbers of the Fixed Mount are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Fixed Mount for SPH-5 Helmet

\$473.66/mount

The Fixed Mount is an accessory which provides a mounting interface between the selected helmet mounting system (Helmet Adapter Plate or Helmet Strap) and the Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. It provides for quick and easy horizontal and vertical adjustments of an attached goggle to accommodate differences in individual heads and helmet sizes. It attaches to any helmet outfitted with a STS Helmet Adaptor Plate or Helmet Strap. Various part numbers of the Fixed Mount are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Helmet Adapter Plate (for various flight helmets)

\$388.23/plate

The Helmet Adaptor Plate is an accessory which offers a semi-permanent helmet attachment method of providing a mounting point for the STS Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. The Helmet Adaptor Plate is bolted to the helmet and provides a low profile, fixed attachment point for interface with the Fixed Mount or Stowage Mount. In addition to the Helmet Adapter Plate, a Fixed Mount or Stowage Mount is required to complete the equipment necessary for a helmet mounted solution. Various part numbers of the Helmet Adapter Plate are available based on the application (flight/ground) and the specific dimensions of the helmet in which it is being installed.

Helmet Strap

\$388.23/strap

The Helmet Strap is an alternative helmet attachment accessory to the Helmet Adapter Plate above, which offers a versatile and mobile method of providing a helmet mounting point for the STS Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. The Helmet Strap is not bolted to the helmet. The accessory consists of strong metallic hooks (front and rear) joined by nylon webbing and an adjustment mechanism. The front hooks attach under the helmet's front rim and rear hooks attach under the helmet's rear rim. Mounting points are integrated into the front hook assembly. A nylon web attached to a fine-toothed, ratcheting adjustment mechanism joins the front hooks to the rear hooks. The Helmet Strap provides an attachment point for interface with the Fixed Mount or Stowage Mount. In addition to the Helmet Strap, a Fixed Mount or Stowage Mount is required to complete the equipment necessary for a helmet mounted solution. The Fixed Mounts and/or Stowage Mounts can be easily slipped into the locking mechanism of the Helmet Strap to provide secure mounting of the goggle onto the helmet. A quick release mechanism prevents one-handed and rapid release of the Fixed or Stowage mount from the Helmet Strap.

Head Harness

\$388.23/harness

The Head Harness is an accessory for helmet-less use and operations with the Low Profile Night Vision Goggle, Low Profile Night Vision Monocular, or Dayviewer. It is specifically designed to properly support and optimize performance of the LPNVG, LPNVM, or Dayviewer. It consists of a metal frame contoured to follow facial curves; forehead and cheek padding is attached to the frame, protecting the wearer. Strong netting also attaches to the frame and extends back over the head, keeping the harness properly secured on the wearer's head. This netting incorporates straps for sizing adjustments. Lastly, a dovetail shaped mounting point extends forward from the frame on a slide, allowing fore/aft adjustment of an attached night vision device. The dovetail also incorporates a device quick release mechanism, designed to be accomplished using one hand.

Refocus Lens

\$95.47/Lens

The Refocus Lens is a unique accessory enhancing operator performance of the STS Low Profile Night Vision Goggle or Low Profile Night Vision Monocular systems. The innovative lens permits rapid refocus from infinity to an in-close distance of approximately 20 – 24 inches, permitting operators to quickly adjust their focus from distant objects to in close objects and back to distant objects. The accessory is easily attached or removed within seconds and without tools to the tube housing on either monocular (left or right) through a simple ball/detent mechanism. A lens is mounted inside a pivot arm, and rotates from in front of the objective lens to a storage position. This storage position lies completely outside of the optical path of the goggle. These movements and releases are designed to be accomplished using one hand.

Universal Refocus Flip Optic

\$94.75/optic

The Universal Flip Optic is an innovative accessory which provides operators the ability to rapidly refocus their night vision view from infinity to approximately 24 inches for momentary use to perform close-in tasks. The Universal Flip Optic is specifically designed for use with many of the currently fielded night vision goggles including the AN/AVS-6, AN/PVS-7, AN/AVS-9, AN/PVS-14, AN/PVS-15, AN/PVS-18 and the AN/PVS-23. The Universal Flip Optic may be attached to the objective on either side of the night vision goggle through a simple, finger clamp. A lens is mounted inside a pivot arm and rotates from in front of the objective lens to a storage position. This storage position lies completely outside of the optical train of the goggle.
